

Bible Reading Plan

THE REVELATION OF JESUS CHRIST

This 12-week Bible Reading Plan guides you through the Revelation of Jesus Christ to John, with 60 days of reading and weekly memorization. You'll read short daily passages, and seven times throughout the plan, an entire section of the book will be repeated to highlight its central message and connect its parts to the whole.

Though Revelation can seem confusing, its purpose—stated in 1:3—is to bless, not confound. It is helpful to know that this letter is cyclical, not chronological. Its structure centers on repeated sets of sevens (churches, trumpets, bowls, etc.), retelling the same events from different angles to display the glory of Christ's eternal reign. This literary style presents one story seven times with growing intensity, using symbolic, apocalyptic imagery to reshape how readers see the world. These visions reveal Christ's two comings and the time between, continually highlighting his return to save and judge, culminating in his final victory. The dwelling place of God will be with his people—We get God, in heaven, for eternity.
